#1 IN PERFORMANCE

PRODUCT INFORMATION SHEET  
V5.0

# gauge **GT** tuner

**GAS**  
Ford • Dodge • GM • Nissan  
Part# 40410

The Triple Dog™ Gauge Tuner (GT) is a vehicle engine tuner, monitor, gauge and diagnostic device all in a single unit. The GT increases horsepower and torque, and improves fuel economy resulting in greater vehicle utility. The monitoring and safety functions will keep the driver informed of the condition of the vehicle.

In the end it all comes back to the driving experience. The GT will put you clean into the back of your seat with our white knuckle performance tuning. Choose between regular and premium tuning for an increase of 10 to 30 horsepower (depending on application) and up to 49 lbs.ft. of torque to the rear wheels. Couple the added power with our shift point mods, rev limiting mods and other download features and your feel like you're in a completely new ride.

If economy or safety is your primary motivator the GT monitors and displays over fifteen different vehicle parameters (PIDs) and it includes our all new Driving Coach feature which teaches end users to maximize their vehicles fuel economy potential. The GT also has a vehicle safety warnings feature and reads and erases DTCs.

## TRIPLE DOG GT Gas

PART# 40410

POWER: 10+ HP/ 20+ LBS. FT.

UPC CODE: 681018404105

PACKAGING WEIGHT: 2 LBS

PACKAGING DIMENSIONS: 12.5" x 12.5" x 4"

### FEATURES:

- White Knuckle Horsepower and Torque
- Improved Fuel Economy
- Loads of Download Features like Speedometer Calibration
- Display Over 15 Vehicle Parameters (PIDs)
- Vehicle Safety Alerts
- Read & Erase Diagnostic Trouble Codes (DTC's)
- Vehicle Performance Testing (Including Drag Tree)
- Exclusive Driving Coach Feature, Patent Pending
- Full Color Display with Multiple Color Themes
- User Set Daytime and Nighttime Driving Modes
- Free Internet Updates and Upgrades
- Installation is Easy (10-20 Minutes)
